Conditions of Sales

NON WARRANTY

I do not give any warranty express or implied as to Description, Quality, Productiveness or any other matter of any Plants, Bulbs, Seeds or any other goods offered in this catalogue, although the greatest care is taken to supply everything correctly named and of good quality. Purchasers unwilling to accept goods on these terms will confer a favor by promptly returning them.

PRICES UNDER WAR CONDITIONS

With the United States engaged in the most titanic conflict that the world has ever known, with an increasing proportion of our population engaged in vital war industries and a consequent depletion of available labor to carry along other businesses, and a steadily rising cost of everything used we have found it necessary to make moderate advances in price of some of the articles we handle, quite a number will be found unchanged. A reduction in the number of varieties has been made and the less desirable kinds discarded. We will continue to give the same high quality in whatever we carry and do our best under rather adverse conditions to supply good material.

DELIVERIES

We will do our best to make deliveries as in the past but delays are unavoidable. On small purchases customers will confer a great favor by waiting and taking orders with them.

INSPECTION CORDIALLY INVITED

We do not plant a large area but crop it intensively and always strive to have it in a neat and presentable condition. During late April and through May we have large collections of Tulips, Narcissi, Fritillarias, Eremuri and other bulbs in bloom. From late May until mid-October there will be Liliums in flower, of these we are growing over 100 varieties. During more than half the year Rock Plants, and Hardy Herbaceous plants can be found in flower as well as interesting varieties of the less common evergreen and deciduous Shrubs. Our garden is open every day for inspection.

HARDY GARDEN ROSES

Garden roses may be successfully planted either in the fall or spring. To achieve success with them thorough preparation of the ground is essential. Well drained ground, free if possible from shade, deeply spaded and liberally manured is what roses love, they are more often starved than otherwise. I do not remember having seen any which have died from over-feeding; use cow manure if possible, but stable manure, well rotted, sheep manure, and bone are all good, so is soot. Plant as early as possible in spring for the best results. Be sure roots are moist when planted, spread them out well, and firm thoroughly. Cover the swollen part from which the shoots spring at least 1 inch. Do not prune newly planted stock until it has started to grow, then do not be afraid to head the plants back severely. During the growing season keep the surface soil stirred lightly and always do this after a rain. When you water do it thoroughly. Spraying the plants each night is more harmful than helpful. Before protecting for the winter, which should be done just in advance of freezing up weather, plants are better headed back to 18-24 inches in height and tie shoots up together, then draw earth up to the plants to the height of 6-8 inches, rather higher if possible, it is good policy to fill the depressions made with manure, this to be covered in spring with the earth you banked up with. After ground is hard frozen spread a generous covering of straw, salt marsh hay, cranberry tops or leaves over the beds holding this in place with evergreen boughs, be sure not to place this mulch on while ground is unfrozen or field mice and other rodents may cause great damage. Do not uncover too hastily, April 5-15 is early enough in the vicinity of Boston. First remove the evergreens, a little later the mulch, leaving the hilled soil to the last. Pruning should be done during April and all dead and very weak wood should be cut out entirely and 3-4 eyes left on other shoots, rather hard pruning gives the best results. A few of the climbers are everblooming in type and pruning on them is better deferred until spring, those giving but one crop of flowers are better to have all flowered wood removed directly after blooming, new shoots made after that time should merely have ends and dead wood removed.

The plants we offer are two year old field grown. We do not carry the cheap discarded greenhouse roses featured by some advertisers, these are good for one year if the price is no higher than that of bedding geraniums. We do not offer or recommend the "package roses" to be found each spring in all types of stores.

Fall planting of all types of hardy roses I would strongly recommend. In recent years I have had very much better success with fall than spring planting and I would strongly recommend anyone who has any doubts as regards its success to try a few plants this fall and compare results with spring plantings.

As a summer mulch I cordially recommend Peat Moss spread to a thickness of 1½ to 2 inches, this prevents the soil drying out, keeps the roots cooler and assists materially in checking weed growth, remove this in the fall and do not incorporate it in the soil. For black spot nothing is better than one of the dust sprays applied once a week through the season, and before each rain. All affected and fallen leaves should be picked up and burned, if this is not done the trouble will be more likely to be acute the following year.

OWING TO WEATHER CONDITIONS LAST SUMMER, LABOR DEPLETION AND OTHER CAUSES A NUMBER OF THE NEW AND PATENTED ROSES COULD NOT BE SUPPLIED EITHER LAST FALL OR THIS SEASON BY THE ORIGINATORS OR GROWERS. THIS HAS NECESSITATED THE OMISSION OF A NUMBER OF VERY DESIRABLE VARIETIES IN BOTH THE HYBRID TEA AND POLYANTHA SECTIONS. TOO MANY NOVELTIES ARE BEING INTRODUCED AND PATENTED EACH YEAR, AND OF THESE A FAIR PROPORTION PROVE TO BE NO ADVANCE ON EXISTING VARIETIES

HYBRID TEA ROSES

Each

- Alezane.** (Pahissa 1934, Patent No. 116.) The large reddish brown buds open to sorrel and unfurl rich apricot with reverse side sorrel striped yellow. Vigorous growth, a really striking novelty\$1.00
- Ami Quinard.** Buds are blackish. The semi-double open flowers velvety crimson\$1.00
- Autumn.** (Coddington, 1931.) Burnt orange in bud stage, fully expanded flowers are burnt orange streaked red, some fragrance, medium size, free bloomer
- Better Times.** (J. H. Hill Co., 1934, Plant Patent 23.) A grand new rose of outstanding excellence which promises to become just as popular outdoors as under glass. The large cerise red flowers are carried on splendid stems and foliage is excellent, delicately fragrant\$1.00
- Betty Uprichard.** (Alex. Dickson & Sons, 1922.) One of the very finest bedding roses both here and abroad. A lovely combination of colors, inner face delicate salmon pink, outside glowing carmine with coppery sheen and orange suffusion
- Briarcliff.** (Briarcliff Greenhouses, 1925.) A sport from Columbia without its faults. Large pointed flowers, silvery rose pink in color
- Caledonia.** (Dobbie, 1925.) Magnificent large double snow white flower. Foliage good and plant very vigorous
- Charlotte Armstrong.** The originators are unable to supply any stock this season.
- Condesa de Sastago.** The beautiful double flowers are two toned, coppery pink outside and golden on the outside of petals, a very high rating rose
- Countess Vandal.** (Leenders & Co.) (Patent No. 38.) Long pointed buds of bronze, coppery salmon, and gold with some fragrance \$1.00 each, \$10.00 per doz.
- Christopher Stone.** (1935.) A very striking and increasingly popular English variety. The flowers are of a fiery brilliant red color and are of fine form\$1.00
- Crimson Glory.** (W. Kordes Sons, 1925.) A very fine dark red and intensely fragrant rose, the large flowers are semi-double, excellent foliage and a continuous bloomer\$1.25

Each

- Dickson's Red.** (Alex. Dickson & Sons, 1939.) Here we have the most outstanding of all rose novelties. A glowing scarlet rose with wonderful fragrance and one which does not burn under sunshine as do so many reds, flowers are produced singly on long strong stems. Received first award "All America Rose Selections" for 1940. The gold medal of the National Rose Society in England as well as the Clay Cup for fragrance\$1.25
- Eclipse.** (J. H. Nicolas, 1936, Patent 172.) A winner of many International prizes abroad, color very rich golden yellow, 20-25 petals to the flower, petals are large and tough, and without shading\$1.00
- E. G. Hill.** Here we have massive blooms of rich maroon scarlet and high fragrance
- Edith Nellie Perkins.** (A. Dickson & Sons, 1928.) Long pointed buds which are creamy and blush without, the color within being salmon pink with a golden orange base. Very vigorous and fragrant
- Etoile de Hollande.** Rich crimson red, one of our very finest bedding roses where brilliancy and constant blooming qualities are desired. Very fragrant
- Golden Dawn.** (P. Grant, 1929.) A lovely yellow Australian rose, the flowers in color resemble those of that grand old variety Marechal Neil, fine foliage and vigorous
- Gruss an Teplitz.** (Geschwindt, 1897.) Carries bunches of medium sized crimson red flowers which are fragrant. Too robust to go with other hybrid teas, its place is in a bed by itself or in the shrubbery border, must be more lightly pruned also
- Hector Deane.** (S. McGredy & Sons, 1939.) This fine new comer is crimson in the bud stage opening orange with a yellow base, extremely fragrant and a husky grower\$1.50
- Hearts Desire.** (Howard & Smith, 1941. Patented.) Awarded a gold medal in the "All America Rose Selection" in 1941. A wonderfully fragrant deep red rose of perfect form. Stock limited\$1.50 each
- Joanna Hill.** Fully double flower with Indian-yellow centre surrounded by gold buff petals
- Kaiserin Auguste Viktoria.** (Lambert, 1891.) This old variety still retains considerable popularity, the flowers are pearly white, tinted lemon, fragrant and well formed, the plant is not a very good grower, however ..
- Killarney, Double White.** Much fuller flowers than White Killarney, color snow white, has a moderate fragrance
- Lady Alice Stanley.** A grand old flesh pink variety, very dependable
- Los Angeles.** (Howard & Smith, 1916.) Rich flame color shaded orange, fragrant, lovely in bud and its glorious color gives it great popularity, must be well protected from black spot
- Mme. Butterfly.** (E. G. Hill Co., 1918.) A glorified sport from Ophelia, richly tinted gold near base of petals, has some fragrance and is a great bloomer
- Mme. Joseph Perraud.** (Gaujard, 1934.) A lovely nasturtium buff, luminous shell pink at edges, almost a pure buff

Each

- Mme. Jules Bouche.** Medium sized white flowers lightly tinted pink in centre
Margaret McGredy. (S. McGredy & Son, 1927.) One of McGredy's finest introductions. A good grower and profuse bloomer, the color is orange scarlet, shaded yellow at the base and is very lovely
McGredy's Ivory. Long buds open to perfectly shaped pure ivory white flowers which are sweetly scented
McGredy's Pride. (McGredy, 1936.) A magnificent rose, orange and salmon pink in color, flushed and veined salmon-yellow. Outside of petals is yellow cadmium, flushed flesh pink, very vigorous\$1.25
McGredy's Scarlet. (S. McGredy & Son.) The large, full flowers of this splendid rose are brilliant scarlet with a touch of orange yellow at base of petals. Vigorous and free flowering
McGredy's Sunset. (McGredy, 1937. Patent 317.) Aptly named. A really superb variety. Outside of petals buttercup yellow, tipped orange, inside chrome yellow flushed scarlet as it opens, color intensifies as blooms expand. Has a pleasing fragrance, a splendid rose in hot weather also\$1.25
McGredy's Yellow. By many growers both here and abroad this is classed as easily the finest yellow hybrid tea rose in commerce. Bright buttercup yellow flowers which stand up under rain, beautiful rich glossy foliage, fragrant
Mrs. Aaron Ward. (Pernet-Ducher, 1901.) Buff in bud, tawny yellow when open, of dwarf habit, free flowering and is good for the edges of beds
Mrs. Erskine Pembroke Thom. Far superior to Souv. de Claudius Pernet as a yellow for the garden. Long buds of a rich lemon yellow color
Mrs. Henry Bowles. (Chaplin Bros., 1921.) Luminous deep salmon pink, high centered flower
Mrs. Henry Morse. (S. McGredy & Son, 1919.) Bright rose, impregnated vermilion, dwarf habit and very free flowering, one of the finest hybrid teas in commerce
Mrs. Sam McGredy. (McGredy, 1930.) Large orange salmon flower with golden suffusion, vigorous and healthy
Mrs. P. S. Dupont. The long pointed buds are reddish gold, expanding into beautiful rich golden yellow flowers, a profuse bloomer and fragrant
Orange Nassau. (Verschuren, 1941.) Patent 350. A wonderful combination of colors gives this a great appeal, the face of the flower is brilliant orange while the outside is chrome yellow.\$1.00
Roslyn. (Towill, 1931.) Full golden yellow, orange splashes on back of petals
Santa Anita. (Howard & Smith, 1941.) Here we have a clear peach blossom pink rose. Long pointed buds of perfect form and a delicate fragrance. Stock limited\$1.50 each
Sequoia (Verschuren-Pechtold, 1939.) The color of this vigorous growing rose is a luscious light pumpkin flesh, suffused apricot, very free bloomer\$1.00 each
Soeur Therese. Long pointed chrome-yellow

Each

- buds marked carmine, rich yellow when fully open, sweet-brier fragrance\$1.00
- Pink Dawn.** (Howard & Smith, 1935.) A sweetly scented fully double deep rose which opens to a lovely pink with an orange base. Sturdy upright habit\$1.00
- President Herbert Hoover.** (Coddington, 1930.) A very beautiful and fragrant rose which steadily grows in favor. The delightful combination of cerise pink, flame, scarlet and yellow which makes up the flower thrills everyone, much superior outdoors to Talisman\$1.00
- Radiance.** (John Cook, 1908.) Probably the hardiest, most vigorous and most generally dependable hybrid tea in America, free from about all ailments, almost too robust to plant with the bulk of its class. Color silvery rose, and fragrant\$1.25
- R. M. S. Queen Mary.** (H. A. Verschuren, 1937.) Plant Patent 249. This was easily the most sensational new rose in 1938. Has received numerous high awards in Holland and the United States. The color is a glorious combination of rich salmon orange with a pure pink and orange base, free flowering, vigorous and very fragrant\$1.25
- Red Radiance.** A rosy red sport from Radiance, very vigorous\$1.25
- Rome Glory.** (Patent 304.) This was selected as the official rose to glorify the third millennium of the founding of Rome, the Eternal City, very large and double richly perfumed crimson blooms. Long stems and a vigorous variety\$1.25
- Sir Henry Segrave.** (Alex. Dickson & Sons, 1932.) Long pointed buds develop into very large high centered flowers of a lemon yellow color deepening towards the center, has a rich fragrance\$1.00
- Signora.** (Aicardi, 1936, Patent 201.) A strikingly beautiful new variety, long buds of warm burnt sienna open to a lighter hue suggesting mandarin. Handsome foliage, flowers carried on long stems, splendid for cutting ..\$1.00
- Talisman.** (Montgomery, 1929.) No rose ever introduced made such a sensation as Talisman. It blooms very freely in the garden, the flowers are unique in their colorings, running from rich apricot, gold, deep and rose pink to old rose. Immensely popular\$1.00
- Texas Centennial.** (Dixie Rose Co., 1935.) Plant Patent 162. A grand sport from President Hoover with all that variety's sterling qualities. The color is blood red toning to cerise red in the centre\$1.00
- Willowmere.** Brilliant pink flowers suffused with a golden light\$1.00

All Hybrid Tea roses offered unless otherwise priced are 75 cents each, \$9.00 per dozen, \$70.00 per 100. We handle only the highest quality of field grown two year old grafted plants. We do not offer any of the cheap discarded greenhouse forced roses, nor do we handle any on their own roots as they are valueless in New England, although succeeding quite well in certain of our warmer states.

SINGLE HYBRID TEA ROSES

There is a special charm about the single flowered Hybrid Tea Roses which appeals to an increasing number of buyers. The following will be found excellent in every way.

Cecil. Large flowers of a beautiful buttercup yellow, the only really pure yellow single.

Dainty Bess. Here we have a delicate shade of shell pink with conspicuous crimson markings greatly admired and justly popular.

Innocence. Very large snow white flowers with wine red stamens tipped with golden anthers.

Irish Fireflame. Another lovely single rose from Dicksons in Ireland, madder orange in color changing to old gold.

Isobel. Rose pink with apricot shadings and a golden yellow centre.

Prices of the foregoing Single Roses, 75 cents each, \$9.00 per doz. As stocks are rather limited, early application for these are suggested.

BROWNELL SUB-ZERO ROSES

These have been hybridized and grown at Little Compton, R. I. and are budded on Rosa multiflora. They are a new race from hardier Species and the Hybrid Teas are all summer bloomers with very fragrant flowers, excellent foliage, extreme vigor and hardiness. Last year we shipped these roses to Idaho, Montana, Minnesota and other cold states and they gave great satisfaction. With the increased interest being shown in them we have increased the number of varieties which includes nearly all that Mr. Brownell has yet placed in commerce.

BROWNELL HYBRID TEA ROSES

ANNE VANDERBILT. Exquisite coppery orange, very brilliant, semi-double, fragrant.

BREAK O' DAY. Color, orange to apricot, very large blooms produced in tremendous profusion.

CRAIGS YELLOW. (New 1942.) Makes a neat shapely bush, flowers medium yellow fully double, fragrant and of pleasing form, \$1.50 each.

KING BOREAS. A real beauty, lemon yellow, fully double and a constant bloomer.

LILY PONS. Vigorous and free flowering, white flowers with lemon centre, the large flowers possess great delicacy.

PINK PRINCESS. Red in bud, expanding deep pink, The first hybrid tea free from any defoliation by black spot.

Price of Brownell Hybrid Tea Roses, not otherwise priced, \$1.25 each, \$12.00 per dozen.

BROWNELL CLIMBING ROSES

These include some of the most magnificent climbing roses we have in America today, with flowers of such size and beauty as to startle anyone who has not previously seen them. A number of these are also superb used as creepers for ground covers or running over boulders, walls and fences. They

have proved hardier than such popular roses as Dr. Van Fleet, Mary Wallace and Silver Moon. Cover grafted joints of Climbers 4 inches, and of Hybrid Teas 3 inches for best results.

APRICOT GLOW. Brilliant coppery pink, double flowers abundantly produced a new shade.

CARPET OF GOLD. This lovely variety brightens the garden early with waves of golden yellow.

COPPER GLOW. Deep coppery orange with delightful spicy fragrance\$1.50 each

CORAL CREEPER. Shades of Ocean coral, complementing other delightful tints.

ELEGANCE. Extra large blooms of perfect form, pure yellow centre shading to white.

FREDERICK S. PECK. Semi-double deep grenadine pink, with yellow centre, an aristocrat.

GOLDEN CLIMBER. (Formerly Mrs. A. C. James.) Fragrant and very large golden yellow flowers, great vigor, now worked on a stock on which this splendid variety starts blooming while quite small. \$1.00 each.

GOLDEN GLOW. A sensational climber at the late World's Fair. Spectrum yellow flowers in great profusion.

GOLDEN PYRAMID. Cadmium yellow, possesses remarkable vigor\$1.50 each

LITTLE COMPTON CREEPER. Large single wild rose pink in clusters, admirable as ground cover.

PEGGY ANN LANDON. An early bloomer, strong double sunflower, orange buds opening yellow.

We can also supply Dr. Burt, Harvest Glow and Brownell Rambler at the same price as other varieties listed.

Price of Brownell Climbing Roses unless otherwise priced, \$1.00 each, \$10.00 per doz.

HYBRID PERPETUAL ROSES

These roses which were immensely popular before the advent of the Hybrid Teas are more winter hardy than the latter and well adapted for the colder portions of New England. In nearly every case they have a very pronounced fragrance. While the majority bloom principally in June, a few are fairly constant bloomers.

Captain Hayward. (Bennett, 1893.) Crimson scarlet, fine form, fragrant and robust.

Frau Karl Druschki. (Peter Lambert, 1900.) Very large, pure white, extremely vigorous, although without fragrance. The most popular of all white roses.

George Arends. (Hinner, 1910.) Sometimes called the "Pink Druschki." The color is a pure soft pink, large and beautifully formed flowers which are freely produced.

Magna Charta. (William Paul & Son, 1876.) Bright pink suffused carmine, sweet scented, hardy and robust. Much used for forcing.

Mrs. John Laing. (Bennett, 1887.) Immensely popular, blooms just as freely as the Hybrid Teas. Large, clear pink flowers, freely produced and shoots are thornless.

Paul Neyron. (Levet, 1869.) Enormous flowers, dark lilac rose in color, very fragrant.

Prince Camille de Rohan. (Eugene Verdier, 1861.) This darkest of all the H. P. Roses is still indispensable. The color is dark crimson, shaded maroon with a gracious fragrance. Given some shade the beautiful flowers will not burn.

S. M. Gustave V. (Nabonnaud, 1928.) An ever blooming hybrid perpetual, lovely pink color, vigorous, fully double flowers and very fragrant.

Ulrich Brunner. Very vigorous large cup-shaped purple-crimson flowers, an old favorite.

Prices of all Hybrid Perpetual roses 75 cents, \$7.50 dozen, \$60.00 per 100. Six at dozen and 25 and 500 at 100 rate.

POLYANTHA OR "BABY RAMBLER" ROSES

This class of roses is steadily growing in favor owing to their constant flowering qualities and hardiness, varieties like Else Poulsen and Karen Poulsen are splendid for hedges but all are admirable for bedding. The name "Floribunda" has been recently applied to certain of the stronger growers but as the entire family are really equally free flowering, the new title should be applied to all or none. The name "Baby Rambler" often used is rather inappropriate for roses which do not "ramble" at all.

Anne Poulsen. (Polyantha.) (Poulsen, 1935.) Large semi-double scarlet-crimson flowers which are fragrant, produced all summer, plants are husky with splendid foliage. The finest of the Poulsen roses. 75 cents.

Betty Prior. (Prior, 1935.) An improved form of the very popular Else Poulsen. Outside of petals dark carmine, inside several shades lighter, vigorous grower, \$1.00.

Cameo. (De Ruiter, 1932.) Shell pink and salmon with a golden glow, a lovely variety.

Chatillon Rose. Vivid light salmon pink, large heads of semi-double flowers.

Else Poulsen. One of Poulsen's grandest introductions, semi-double bright pink flowers in large trusses, a constant bloomer.

Golden Salmon. Of a lovely golden salmon color.

Gruss an Aachen. Different from all other Polyanthas on account of the remarkable size of the flowers which are often mistaken for Hybrid Teas. Buds are orange red and yellow, when fully open the very double flowers are a charming combination of light pink and salmon yellow. A wonderful fall bloomer.

Gruss an Aachen, Pink. Like the type in form but the color is a pleasing pink.

Gruss an Aachen, White. A fine novelty, buff yellow while in bud becoming snow white when open. 75 cents.

Mme. Cecile Brunner. (Ducher, 1881.) Popularly known as the "Sweetheart Rose," delightful for boutonnieres.

Marie Pavie. Pure white of very nice form and free flowering.

Mrs. R. M. Finch. Soft rosy pink. A glorified Mme. C. Brunner.

Permanent Wave. (M. Leenders, 1932, Patent 107.) Of the large flowered hybrid polyantha type, rosy pink flowers in large clusters permanently waved from bud stage to finished flower, color rosy pink. A fine acquisition. 75 cents.

Springtime. Exquisite apple blossom pink with lighter shadings, impressive sprays of semi-double cup-shaped blooms.

World's Fair. No stock available this season.

- Pink Jewel.** (Kordes 1940.) Arbutus pink shading to deep camellia rose, fully double flowers abundantly, carried on large flower clusters \$1.00 each.
- Red Velvet.** (Kordes 1940.) The color is intensely vivid crimson lake, outside shaded carmine, very free bloomer. \$1.00.
- Sunmist.** (Kordes 1940.) Graceful pointed buds of clear light sulphury yellow shading to canary yellow, imposing flower clusters. \$1.00.

Prices of Polyantha roses apart from novelties, 60 cents each, \$6.00 per dozen., \$45.00 per 100.

CLIMBING, RAMBLER OR PILLAR ROSES

Steady progress is being made in this important family of Hardy Roses and we have today a much wider range of colors and better still are getting varieties like New Dawn and Allen's Fragrant Pillar which really throw several crops of flowers. Special advancement has taken place amongst the yellows and we now have much hardier varieties with large golden flowers, far superior to those originated a couple of decades ago.

- Allen's Fragrant Pillar.** (Allen, 1930.) An ever blooming climber with large, full, fragrant satiny pink flowers. \$1.00.
- American Pillar.** (Dr. Van Fleet, 1902.) Carries immense trusses of crimson pink flowers, which last extremely well, possesses great vigor.
- Aviateur Bleriot.** Small clusters of light yellow flowers with some fragrance. Fine as either a climber or trailer, rich shining foliage.
- Blaze.** An excellent pillar rose similar in color to Pauls Scarlet but ever blooming, a cross between Pauls Scarlet and Gruss an Teplitz. \$1.00.
- Doubloons.** (M. H. Horvath, 1934.) (Plant Patent No. 152.) A wonderful climber carrying large clusters of golden yellow flowers. Buds are saffron yellow, fragrant and fade very little. A fine acquisition. \$1.00 each.
- Dr. Van Fleet.** (Dr. Van Fleet, 1910.) Extremely vigorous, large clear pink flowers carried on strong stems, splendid foliage, a grand climber.
- Easlea's Golden Rambler.** (Walter Easlea, 1932.) A grand climbing rose with large clusters of fragrant golden yellow flowers enhanced by a luminous shade of light orange. \$1.00 each.
- Emily Gray.** (Dr. A. D. Williams, 1916.) This lovely light orange yellow climber is steadily forging its way into popular favor, reports of its tenderness frightened some would-be planters, but it has succeeded so well in many sections that this fear is vanishing. Flowers are very large, carried on long stems and the foliage is very attractive.
- Flash.** (R. M. Hatton, 1938.) (Patent 396.) Vivid orange scarlet, back of petals and centre of flowers yellow with prominent golden stamens, flowers for many weeks. \$1.00 each.
- Gardenia.** (W. A. Manda, 1899.) Buds are yellow, opening pure sulphur, foliage very glossy and attractive, fine as either a climber or trailer.
- Glenn Dale.** (Dr. Van Fleet, 1927.) Beautiful lemon yellow buds. Introduced by the American Rose Society. A charming variety. 75 cents.
- Jacotte.** A very lovely salmon orange variety with a gold shading. Possesses a little fragrance, the foliage is very lustrous. This rose is thriving wonderfully in many parts of Massachusetts. 75 cents each.

- Mme. Gregoire Staechelin.** Better known as the "Spanish Beauty" rose, an immense pink flower, extremely vigorous.
- Mary Wallace.** (Dr. Van Fleet, 1921.) Large bright pink flowers illumined with gold and quite fragrant, very vigorous.
- Mermaid.** Still rather scarce, this lovely and immensely popular English variety is steadily increasing in popularity. The large single yellow flowers are 4-5 inches in diameter and plants flower over a long season. \$1.00.
- New Dawn.** (Somerset Rose Nursery.) (Plant Patent No. 1.) A truly ever blooming pink climber, best described as a perpetual flowering Dr. Van Fleet. This, the first patented rose has emphatically made good. \$1.50.
- Paul's Scarlet Climber.** (William Paul & Son, 1916.) The finest of all our climbing red roses, flowers are large, carried on trusses of moderate size and hold their color until fading, a grand pillar rose.
- Primrose.** A vigorous, hardy and quite dependable climber with soft yellow flowers which are quite large and fully double.
- Purity.** Large semi-double snow-white flowers, very free.
- Reveil Dijonnais.** (Buatois, 1931.) A lovely climber. Medium sized golden buds striped with reddish pink opening to semi-double golden yellow flowers, center circled with carmine, gives some flowers during the summer. \$1.00 each.
- Silver Moon.** (Dr. Van Fleet, 1910.) Holds first place easily amongst climbing roses. The large flowers are pure white in color and the golden anthers show up very prominently above the translucent petals. Splendid foliage and extremely vigorous.
- Wichuraiana.** A fine Japanese rose, useful as climber and also for covering banks, the foliage is very attractive, making a perfect mat of evergreen. The single white flowers are carried in trusses. Price of Climbing Roses except otherwise priced, 60 cents each, \$6.00 per doz.

RUGOSA AND HYBRID RUGOSA ROSES

- Agnes.** (Saunders, 1922.) Of Canadian origin and will withstand rigorous winter conditions, buds are coppery turning amber yellow, a strong grower. Flowers are fragrant.
- Conrad Ferdinand Meyer.** (Muller, 1900.) A very handsome rugosa, the large flowers are light pink in color and very freely produced, very robust grower.
- Dr. Eckener.** (Berger, 1930.) Salmon pink with golden base.
- Blanc Double de Coubert.** An excellent pure white.
- F. J. Grootendorst.** (Degoey, 1918.) Flowers are bright red and suggestive of the old Crimson Rambler in color, borne very abundantly through the season, makes a fine hedge plant.
- Max Graf.** A trailing variety for covering ground or walls, the light single pink flowers are very freely produced, carries splendid foliage.
- Pink Grootendorst.** (F. J. Grootendorst & Sons, 1923.) Has all the good qualities of the original Grootendorst but is light pink in color.
- Vanguard.** A new color in Rugosas, orange salmon and gold. Fine as a shrubby plant or as a specimen.
- Prices of Rugosa roses, 60 cents each, \$6.00 per doz.

ROSE SPECIES

These are very interesting for groups, or individual specimens; fruits in about all cases are attractive following the flowers.

Rosa Hugonis. The earliest of all roses to flower, usually about May 22 near Boston, a strong grower and every branch is smothered with soft yellow flowers, has been very heavily planted but has a bad knack of dying out wholly or in part during midsummer.

Rosa Rouletti. The smallest of all roses, fine for pot culture or the Rock Garden, small double pink flowers all summer. .50-.75 to \$1.00 each.

Rosa Rubrifolia. Striking reddish leaves and pink flowers.

Rosa Rubiginosa (Sweetbriar). Very fragrant foliage, small flowers and oval fruit.

Rosa Setigera. The "Prairie Rose" carries large bright pink clusters of flowers rather late in the season.

Rosa Zanthina. A fine Chinese species, more dependable than Hugonis, blooming a little later.

Spinossissime Altaica. (Scotch rose.) Grand old variety, lovely in both flower and fruit.

Prices of Rose Species, 75 cents each, \$9.00 per doz.

Note: We also have the miniature rose, Oakington Ruby, 75 cents each.

MISCELLANEOUS ROSES

Austrian Copper. In cultivation since 1596. The single flowers are rich coppery red in color, reverse of petals golden yellow. Quite scarce.

Blanche Moreau. A lovely pure white Moss rose.

Crested Moss. Rose colored and beautifully crested.

Harison's Yellow. Introduced by Harison over 100 years ago. Carries large semi-double golden yellow flowers in great profusion a fortnight after Hugonis.

Skyrocket. (Kordes, 1934.) A striking new evergreen shrubby rose, carries very large clusters of bloom all summer of a rich red color, makes a fine plant for the shrubbery, a forerunner of a new race.

Prices of Miscellaneous Roses, 75 cents each, \$8.00 per doz.

OLD FASHIONED ROSES

We have limited stocks of a few of the very old Roses like Cabbage, York & Lancaster, Damask and one or two others. Price \$1.50 each. We will gladly send names of such varieties as we have, on application.

STANDARD OR TREE ROSES

Of these we have for some years carried moderate stocks. As the tops are well elevated and get a good circulation of air they are less susceptible to black spot than the dwarf hybrid teas. It is good policy to wrap some sphagnum moss about the budded portions in spring and keep this moist until plants are well started. Neither the numbers nor the varieties of these standard roses are numerous and early application should be made for any needed.

Price of Standard Roses, \$3.50 each, \$37.50 doz.

List of varieties furnished on application. We can supply all the popular colors.

ROSES IN POTS FOR LATE PLANTINGS

We can supply a good selection of Roses in pots all first quality stock for late plantings. Bare root plants from the field are much to be preferred for planting until late May.

HARDY LILIUMS

These are one of my leading specialties, and a large proportion of those offered are home grown bulbs. The coming of *Lilium regale* paved the way for a tremendously increased interest in Lilies. Whereas formerly but a limited number of varieties were listed or grown, the demand today is for a very much wider assortment, embracing practically all Lilies which will grow in North America. The bulb rooting varieties like *Candidum* and *Testaceum* should be planted quite shallow, 2-3 inches suffices, while such stem rooters as *regale*, *speciosum*, *auratum*, *Henryi*, *Formosanum*, *Browni*, and others should be covered 8-12 inches. All Lilies should be planted where their feet will be dry in winter, fresh manure must never be used in the soil at planting time, if very old and well decayed it is all right, all lilies love leaf mold and they seem to root with avidity in peat moss, sand is good for all of them and at planting time a cushion should be placed for each bulb to rest on scattering more above them.

Fall is a vastly better season than spring for planting all varieties of hardy *Liliums* and it is unfortunate that so many firms feature them even more in spring than fall. No European varieties will amount to very much if spring planted and the same holds true of every North American variety but some of the Asiatic species do moderately well as do the *regale* hybrids. We are omitting from this list many varieties which will be found in our fall catalogue. The earlier all lilies are planted in spring the better, waiting for warm weather is entirely wrong, late March and through April is best, only a few varieties will do much if planted later. For real success with Lilies start planting *candidum* in late August and continue with other varieties until ground freezes up tight.

A number of important varieties of lilies, for which in the past we have depended on importations from Japan, are now in very short supply or entirely unprocurable. All these varieties can and will (it is hoped) be entirely raised in America, it will take time as some of them are of slow propagation, meanwhile we can get along without them very well.

List of *Liliums* which May Be Planted in Early Spring

- AMABILE.** A charming stem rooting variety blooming in mid-June and growing 18-24 inches high. Flowers bright red spotted black. Cover 4 inches.
30 cents each, \$3.00 doz.
- AURATUM.** We will have no bulbs of any form of *auratum* for spring delivery but will have a moderate supply in late October.

- AURELIANENSE.** A splendid new hybrid raised in France between Henryi and Sargentiae, superior to either parent. Stock limited ..\$5.00-\$7.50 each
- BROWNI ODORUM.** This fine Chinese lily is of the trumpet type and flowers earlier than regale. Flowers are white stained purple externally, carries only a few flowers to a stalk\$1.25 each
- CANADENSE.** This charming native lily is unsuitable for spring planting. Secure bulbs in September or October for best results.
- CANDIDUM.** We have no bulbs of this popular lily for spring sales but will have both the type and the newer Salonikae to offer in late summer.
- CENTIFOLIUM.** This superb trumpet lily is superior to regale in some respects and it does very well spring planted. Strong bulbs\$1.00-\$3.00 each
- CHALCEDONICUM.** Carries brilliant scarlet recurving flowers in early July, this is one of the parents of testaceum. Strong bulbs\$1.50 each
- CREELMANNI.** (George C. Creelman.) A grand Canadian hybrid flowering later than regale, very vigorous and dependable.\$1.00-\$3.00 each
- CROWS HYBRIDS.** Another grand race of white trumpet lilies raised in Canada and coming in season after regale has passed, very vigorous.
75 cents-\$1.00 each
- DAURICUM PARDINUM.** A grand and very robust form of dauricum not flowering until early August, the large flowers which are rich orange flushed with orange and apricot face upwards and as many as 20-25 are sometimes carried on a stem.
50 cents each, \$5.00 doz.
- ELEGANS.** (Thunbergianum.) A dwarf June flowering lily coming in several colors. Mixed.
25 cents each, \$2.50 doz.
- FORMOSANUM.** Prices early flowering variety.
Blooms in July25 cents each, \$3.00 doz.
- FORMOSANUM.** Late pure white variety. A truly superb lily with great vigor and at its best from late August onwards. The trumpets are much larger than those of regale. One of our finest Lilies. Strong bulbs30 cents each, \$3.00 doz
Extra big bulbs50 cents each, \$5.00 doz.
- Note:** Anyone wanting pure white flowers late in the season should plant this lily as no white Speciosums are now available.
- GIGANTEUM HIMALAICUM.** The tallest growing and most noble of all Liliums. Requires moderate shade and protection from harsh winds. Plant not over 4-5 inches deep as it is a pure bulb rooter. Makes the largest bulbs of the entire Lilium family. Mammoth bulbs\$2.50-\$4.00 each
- HANSONI.** One of our most dependable Lilies flowering in late June. Strong flowering bulbs.
60 cents each, \$6.00 doz.
- HENRYI.** Often referred to as the "orange speciosum," this is easily one of the most dependable of all Lilies, flowers from July 15 onwards and thrives with virtually everyone. Plant 10 inches deep for best results.
25, 50-75 cents each, \$2.50-\$5.00-\$7.50 doz.
- MARTAGON.** We have nice stocks of the type as well as album, Dalmaticum, and Cattanae but planting is vastly better deferred until fall.
- PARDALINUM GIGANTEUM.** The "Giant Panther" or "Sunset" lily can be spring planted with fair success, it is the easiest as well as one of the most showy of our North American lilies.
35-50 cents each, \$3.00-\$5.00 doz.
- PRIDE OF CHARLOTTE.** A splendid hybrid between

regale and Sargentiae flowering later than regale, very hardy and desirable\$1.00-\$1.50 each
PRINCEPS. Raised in Ontario this is another extra fine regale hybrid which has become very popular.
 75 cents-\$1.50 each

REGALE. The most widely cultivated and popular lily in America today, succeeds under all sorts of conditions. We have bulbs in a number of sizes all of which will flower20-40-50-75 cents each
 \$2.00-\$4.00-\$5.00-\$8.00 doz.

The largest sized bulbs are 12-13 inches in circumference.

SARGENTIAE. Mrs. Sargent's lily naturally blooms later than regale and has been much used by hybridists in efforts to secure later blooming hybrids. It is not so vigorous a lily as regale, however75 cents-\$1.00 each

SHELBURNE HYBRID. Still another excellent regale hybrid from Vermont. Flowers average larger than those of regale and come 10 days later.
 75 cents-\$1.00 each

SPECIOSUM RUBRUM. We have a nice supply of home grown bulbs of this splendid lily which if spring planted will flower in September and early October40-50 cents each, \$4.50-\$6.00 doz.

SPECIOSUM ALBUM. We cannot supply any of this variety for spring delivery but will have rather limited stocks to offer in the fall, also punctatum and magnificum.

SULPHUR-GALE. A hybrid between sulphureum and regale, hardy and vigorous.
 50-75 cents each, \$5.00-\$7.50 doz.

SULPHUREUM. This superb late flowering trumpet lily comes from Upper Burma but proves hardy in New England if planted 10-12 inches deep. It carries much larger flowers than any other trumpet lilies and blooms outside in August and early September. Strong bulbs\$1.50-\$2.00 each

TENUIFOLIUM. The Siberian Coral Lily is our earliest bloomer, established bulbs sometimes flowering in late May, it has brilliant recurving red flowers20-40 cents each, \$2.00-\$4.00 doz.

TENUIFOLIUM RED STAR. Carries much larger flowers than the type blooming a little later.
 30 cents each, \$3.00 doz.

TESTACEUM. The gloriously beautiful Nankeen Lily is the only natural hybrid lily we have, and is easily the most lovely. Enjoys a sweet soil like candidum (one of its parents) plant not over 4 inches deep. Strong flowering bulbs. \$1.50-\$2.00 each

T. A. HAVEMEYER. A beautiful American hybrid between Henryi and sulphureum blooming in August. The soft buff flowers are semi-trumpet in shape and 6 inches across, is a grand and robust growing lily. Stock limited\$5.00 each

TIGRINUM SPLENDENS. A very good form of the popular Tiger lily30 cents each, \$3.00 doz.

TIGRINUM FLORE-PLENO. One of our very few double flowered Liliums, blooms in August.
 30 cents each, \$3.00 doz.

UMBELLATUM. This lily comes in many colors mainly flowering in June or very early July. Planted 6 inches deep they do well. Very hardy and dependable. There are numerous named varieties which are best planted. Fine mixture.
 25 cents each, \$2.50 doz.

WILLMOTTIAE. Miss Willmotts lily flowers in mid-July and carries spikes of recurving reddish orange flowers50-60 cents each, \$5.00-\$7.00 doz.

WILLMOTTIAE UNICOLOR. (Sutchuenense.) This is a spotless form of Willmottiae and a more robust

grower, carrying a sturdier stem.

75 cents to \$1.00 each

For beginners desiring to try *Liliums* in their garden we will send a collection of 12 vars. in strong flowering bulbs postpaid for \$3.00.

For a complete list of lilies send for our fall bulb catalogue ready in August where over 100 varieties are contained.

MOSAIC IN LILIUMS

This is the disease which attacks *Liliums* both cultivated and in the wild. We have made every effort to control it and the bulbs we offer are as clean as any to be had. At present all shipments of *Auratum* and other varieties from Japan are debarred and will—let us hope—remain so, they have always been the most potent carriers of this disease. There is no cure for Mosaic and affected bulbs should be lifted and destroyed. It is more apparent on *auratum* than any other lily. Quite a number of lilies like our common *Tigrinum*s are sometimes affected but they continue to live and flourish in spite of it. There is no garden here or abroad in which an expert might not find symptoms of Mosaic just as he would black spot on roses and mildew or red spider on phloxes.

Many *Liliums* are readily increased from seeds. One variety has been flowered in 6 months and a great many by starting seeds under glass can flower this variety (*Formosanum*) within 8-9 months. Other varieties can be flowered the second year. Some varieties will germinate within a month or less. Other varieties like *auratum*, *speciosum* and a good many others are very slow, some requiring a year to germinate. Seeds can be started in winter in a greenhouse or the home, later still in a cold frame or outdoors in late April. Sowings can also be made outdoors or in a frame in the fall.

To anyone desirous of trying lilies from seeds we have numerous varieties in pkts. at 25 cents each, some choice kinds 50 cents. A special collection of 12 varieties hardy in New England or any other equally cold section, of easily germinated varieties for \$2.00. Enquiries gladly answered regarding treatment, soil, etc.

PRACTICAL BOOK ON LILIUMS

“Lilies and Their Culture in North America”

By William N. Craig

This, the first practical book on Lilies published in America has been warmly praised by the Horticultural press of both America and Europe. The volume contains 144 pages and is freely illustrated. Covers every phase of Lily Culture. Price \$3.00, from the author in Weymouth, Mass.

Note: The entire edition originally issued of this work has now been sold with the exception of 20 copies. Requests have been made for another edition which will be of value to both commercial and amateur growers and this will be taken up as soon as World conditions permit.

The Royal Horticultural Society's Lily Year Book

We have for several years been offering copies of this splendid publication. It was issued in 1939 and 1940 in spite of the terrible war conditions prevailing. We expect a shipment of new Year Books from London about the time this catalogue goes to press, and will forward copies to anyone for \$2.00 postpaid. We will also have the Daffodil Year Book at the same price and Classified lists of Daffodil names (containing 6,500 names) the latter postpaid for 75 cents. The severe shortage of paper abroad and the difficulty in securing a sufficient allowance for these publications is the sole reason for the delay in receiving them.

INTERESTING BULBOUS PLANTS FOR SUMMER FLOWERING

ACIDANTHERA.

Bicolor. A charming, very fragrant bulbous plant from Abyssinia. White with chocolate markings in the throat.

10 cents each, \$1.00 per doz.

ANEMONE.

St. Brigids. Not very hardy but if planted in early spring will bloom well. Splendid in cold frames60 cents doz., 4.50 per 100

AMARYLLIS.

Halli. (Lycoris squamigera.) This hardy Amaryllis can be planted in spring or fall. It carries spikes of lovely fragrant pink flowers in August or early September. Strong flowering bulbs. 75 cents each, \$9.00 doz.

AMARYLLIS.

Large flowered Hybrids for indoor culture.

Blood red75 cents each

Red with white stripes75 cents

Assorted Hybrids, extra large75 cents

Assorted Hybrids, strong flowering50 cents

BEGONIAS, TUBEROUS ROOTED.

We have Single, Double and Camellia flowered strong flowering tubers in White, Pink, Scarlet, Yellow, Orange, Crimson, Salmon

25 cents each, \$2.50 doz.

Fine Mixture20 cents each, \$2.00 doz.

CINNAMON VINE. (Dioscorea Batatas.)

A rapid growing vine with heart shaped leaves and small cinnamon scented flowers.

10 cents each, \$1.00 doz.

GALTONIA. (Hyacinthus.)

candicans. Sometimes called the giant summer snowdrop. Bulbous plant carrying very

robust spikes, 3-4 feet high, circling which are numerous large snowdrop-like flowers.

\$1.25 doz., \$10.00 per 100

GLOXINIA.

Four distinct colors, grand bulbs.

30 cents each, \$3.00 doz.

HYMENOCALLIS.

Calathina (also called Pancratium and Ismene) popularly called "Spider Lily" and "Peruvian Daffodil." Plant out when weather is warm and settled in full sunshine, cover bulbs not over 3 inches. Flower spikes soon appear and the flowers are delightfully fragrant. When buying insist on bulbs having roots, or but few will flower. In fall lift and store with all roots attached, pack in peat moss and store over winter in a warm cellar. Large bulbs25 cents each, \$2.50 doz. Mammoth bulbs40 cents each, \$4.00 doz.

MONTBRETIA.

The new Earlham Hybrid Montbretias show a tremendous advance over the old varieties in common culture. Flowers run from 2½-4 inches in diameter, in some cases attaining a height of 3-4 feet, they flower very freely with well branched spikes and all buds open out in water. Plant 4 inches deep in May. Store bulbs in soil or peat moss over winter. The following are outstanding varieties:

Apricot Queen. (New.) Superb rich golden yellow apricot, extra large.

25 cents each, \$2.50 doz.

Fiery Cross. An immense fiery orange with large crimson blotch in centre.

30 cents each, \$3.00 doz.

Golden West. A fine deep yellow, with orange shading10 cents each, \$1.00 doz.

George Davison. A fine light orange with well branched spike10 cents each, \$1.00 doz.

His Majesty. Deep yellow shading to bright scarlet, a grand variety with flowers as much as 4 inches in diameter, has great vigor.

10 cents each, \$1.00 doz.

King Edmund. Golden orange with carmine blotched centre10 cents each, \$1.00 doz.

Lady Hamilton. A charming large apricot variety with wide band of apricot rose.

10 cents each, \$1.00 doz.

Lord Nelson. Orange with red shading, vermilion outside10 cents each, \$1.00 doz.

Princess Mary. Pale yellow, lightly tipped red, a fine variety20 cents each, \$2.00 doz.

Prometheus. Very rich orange with deeper ring round eye20 cents each, \$2.00 doz.

Queen of Spain. Immense pure golden orange flowers, reverse golden apricot.

20 cents each, \$2.00 doz.

Queen Alexandra. Pale orange yellow with deeper bars across petals . . .10 cents each, \$1.00 doz.

Star of the East. Superb spikes of deep golden orange, very handsome . .25 cents each, \$2.50 doz.

Una. Rich apricot with carmine blotch.

20 cents each, \$2.00 doz.

Fine Mixture, All Colors . . .10 cents each, \$.75 doz.

TIGRIDIAS

These very colorful bulbous plants if planted outdoors any time after May 15 in full sunshine will furnish a long succession of their large and strikingly beautiful flowers. Bloom as late as Nov. 1 in the average season.

We can supply Tigridias in separate colors as follows:

Pure white, Yellow, Scarlet, Lilac, Rose pink,	
Crimson	\$1.25 doz.
Fine mixture all colors	\$1.00 doz., \$7.50 100

TUBEROSES

Double Pearl	\$1.00 doz.
Single Everblooming Mexican.	

10 cents each, 75 cents per doz.

Plant tuberoses about May 15 and onwards, in a warm, sunny, well drained location.

ZEPHYRANTHES. (Fairly Lily.)

These interesting bulbous plants are suitable for cultivation in pots, pans, tubs and outdoors, when planted out in warm ground they succeed much the best and their blooming season extends until sharp frost.

Ajax. Pure yellow, a rather rare and scarce variety	15 cents each, \$1.50 doz.
---	----------------------------

Candida. Snow white and very lovely, flowering with us outdoors last season until November.	
---	--

10 cents each, 75 cents doz.

Rosea. Clear rosy pink, the variety more seen than any other	15 cents each, \$1.50 per doz.
---	--------------------------------

HARDY VINES OR CLIMBERS

ACTINIDIA.

arguta. Splendid Japanese climber, rich, shiny foliage, white flowers, followed by sweet edible fruits	\$.75-\$1.00
--	---------------

AKEBIA.

quinata. (Five leaved Akebia.) Green clover-like foliage and drooping dark purple flowers...	\$.75
--	-------

AMPELOPSIS.

quinquefolia. (Common woodbine or Virginia creeper.) Very vigorous native vine, beautiful foliage in fall	50 cents
---	----------

Veitchi (Boston ivy.) An immensely popular climber for covering walls, foliage very brilliant in fall	50 cents
---	----------

ARISTOLOCHIA.

sipho (Dutchman's pipe.) Rapid growing climber with large leaves, makes a fine screen, 3-4 feet.	
	\$1.00-\$1.50 each

BIGNONIA.

radicans. (Trumpet-creeper.) Vigorous climber, fine for covering unsightly objects. The flowers are large deep red with orange throat...	75 cents
--	----------

grandiflora. Larger and richer colored flowers, a little more tender than radicans, does finely along the coast	\$1.00-\$1.50
---	---------------

CELASTRUS. (Bittersweet.)

orbiculatus. Japanese bittersweet. Robust climber for covering walls, fences and banks covered in fall with rich orange fruits	\$.75
--	-------

scandens. Common bittersweet. Very showy orange fruits which cling to the shoots practically all winter	\$.75
---	-------

CLEMATIS

We call special attention to the fine list of these we are offering this season. As there have been many failures in growing Clematis a few simple directions as to their culture may not be out of place here, this refers more especially to the large flowered varieties as with the small flowered section failures are comparatively few. Plant where there is not more than 4-5 hours sunshine a day and use either low growing plants or peat moss to help keep roots cool. Excellent drainage is very necessary, clematis like a rich soil but not too heavy, they are all lime lovers so a little sprinkling about them occasionally will be helpful. Well rotted cow manure is an ideal fertilizer and fine bone while slow acting is safe and valuable, spite of contrary opinions occasionally expressed.

Be sure to provide suitable trellises or wire supports, for the plants should not be fastened too close to stone or brick walls. The small flowered section can be headed back hard each spring but the large flowered group simply require old wood which is dead or nearly so removed. Our plants are mainly in pots of both sections, a limited number being wrapped in sphagnum moss and waterproof paper, all are staked, planting can thus be done over quite a long season.

LARGE FLOWERED SECTION

	Each
Ascotiensis. A very lovely azure blue	\$1.00
Belle of Working. Lovely large double silvery mauve blooms	\$1.25
Comtesse de Bouchard. A very pleasing pink	\$1.00
Crimson King. An extra large red, very strik- ing	\$1.50
Duchess of Albany. A charming trumpet shaped pink	\$1.50
Duchess of Edinburgh. A very popular large double white	\$.75
Elsa Spath. Large and lovely bright blue	\$1.00
Gipsy Queen. Dark purple violet, distinct and striking	\$1.25
Henryi. A fine dependable single pure white ..	\$.75
Jackmanni. A grand old reliable deep purple	\$.75
King Edward VII. Large violet with crimson bars	\$1.50
Lady Betty Balfour. A very large and rich purple variety	\$1.50
Lady Caroline Neville. French white with strik- ing mauve bars	\$1.50
Lady Northcliffe. Lavender, blue, and purple are all blended here	\$1.50
Lawsoniana. Extra large superb blue	\$1.00
Mme. Baron Veillard. Large lilac rose	\$.75
Mme. Edouard Andre. Very popular old red variety	\$.75
Nelly Moser. Beautiful large mauve with red bars	\$1.25
Prins Hendrik. Immense azure blue with ruffled petals	\$1.50
Ramona. Large lavender blue, justly popular ..	\$.75
The President. Rich reddish plum violet	\$1.50
Ville De Paris. Blue with red stripes, extra fine	\$.75
William Kennett. Rich deep lavender of excep- tional size	\$1.00

SMALL FLOWERED SECTION

- Crispa.** Bell shaped blue flowers, very pretty. 75 cents
- Jouiniana, Spingarns Var.** Blooms in late summer with showy lavender sprays\$1.50
- Mrs. Robert Brydon.** This resulted from a cross between *C. Davidiana* and a white native variety. Carries masses of watery blue flowers in Aug. and Sept.\$1.50
- Montana rubens.** Rosy red, medium sized flowers75 cents
- Montana undulata.** Mauve pink, early bloomer. 75 cents
- Paniculata.** White fragrant Japanese variety, very popular50 cents
- Tangutica obtusiuscula.** The golden yellow Clematis\$1.00
- Texensis (coccinea).** Urn shaped scarlet flowers75 cents
- EUONYMUS.** (Wintercreeper.)
- Kewensis.** A splendid low growing trailer with small, dark green oval leaves, fine in the rock garden 50 cents each, \$5.00 doz.
- minimus.** Very fine variety, suitable for rock gardens50 cents each
- radicans.** Splendid, thoroughly hardy evergreen climber\$.50-\$1.00 each
- radicans vegetus.** Broader leaves than type, hedge plant or climber, fruits very abundantly. Succeeds equally well in sunshine or shade25 cents to \$2.00 each
- HEDERA**
- helix.** (English Ivy.) Splendid evergreen for walls, succeeds best in partial shade, also fine as ground cover. Strong plants..\$.25-\$1.00
- Baltica.** Small leaves, very hardy type, suitable for New England\$.25-\$1.00
- gracilis.** Very fine leaved variety, and admirable climber\$.25-.75
- Pittsburgh.** This name has been given to a very branching variety of the common English ivy\$.50-.75
- We have small stocks of a number of other ivys, including the following: *coreacea*; *chrysocarpa*, *discolor*, *argentea*, *Mrs. Pollock*, *silver Irish*, *poetica*, and *variegated*. Strong plants50-75 cents
- HYDRANGEA.**
- petiolaris.** Climbing hydrangea. Strong..\$1.50-\$3.00
- JASMINUM.**
- nudiflorum.** The hardy yellow jasmine, given a well sheltered position this fine climber is perfectly hardy near Boston, it flowers very freely during January and February. Strong field plants\$.75-\$1.50
- LONICERA.** (Honeysuckle.)
- Japonica Halleana.** Fragrant white to soft yellow flowers all summer50 cents
- Sempervirens Magnifica.** A superior ever-blooming form with long tubular salmon scarlet flowers75 cents
- POLYGONUM.**
- auberti.** Superb for rambling over trees, strong climber covered with clouds of fleecy like pure white flowers\$.75-\$1.00
- WISTERIA.**
- Sinensis.** Blue Chinese Wisteria. Grafted plants which are guaranteed to flower \$1.00-\$2.00
- Sinensis alba.** A pure white form of the foregoing\$1.00-\$3.00

We have a limited number of strong Wisterias grown in standard form with sturdy stems and fine heads, both in pure white and blue at \$7.50 each. These are splendid for tub culture or to plant in perennial borders. Judicious pinching easily keeps them in proper shape.

AZALEAS

We have pleasure in offering an extra fine selection of these beautiful shrubs.

Each

- altaclarensis.** Lovely rich yellow\$4.00-\$5.00
arborescens. (Sweet Azalea.) Fragrant white flowers in July. Extra strong\$1.50-\$3.00
calendulacea. (Flame Azalea.) Shades run from yellow to deep orange, flowering in late May and early June\$2.00-\$4.00
Ghent Hybrids. Large flowers in a variety of colors, very strong\$2.00-4.00
japonica. (Japanese Azalea.) Large clusters of rich orange flowers\$2.00-\$3.00
Kaempferi. (Japanese Torch Azalea.) Brilliant red flowers\$2.00-\$5.00
mucronulatum. (Mongolian Azalea.) Strong clumps 15-18 inches\$3.00
mollis. (Chinese Azalea.) Various colors\$2.00-\$4.00
Miss Louise Hunnewell. Deep yellow to orange colors\$3.00-\$5.00
Poukhanensis. (Korean Azalea.)\$2.50-\$4.00
Schlippenbachii. (Royal Azalea.) Lovely pink flowers, extra strong\$2.00-\$3.50
Vaseyi. (Pinkshell Azalea.) Beautiful pink color, early bloomer\$2.00-\$4.00
Viscosa. (Swamp Azalea.) White flowers, late bloomer\$2.00-\$3.00
The following are evergreen varieties:
amaena. Conspicuous small purplish red flowers, abundantly produced very early ...\$2.00-\$3.00
Ledifolia Alba. (White Indian Azalea.) Large single white flowers\$3.00-\$4.00
Yodogawa. Double pinkish lavender flowers, very hardy\$2.50-\$3.00

ARONIA.

- arbutifolia.** White flowers followed by brilliant red fruits75 cents

BERBERIS.

- vernae.** Makes a handsome shrub covered with yellow flowers in early summer and followed by salmon fruit and rich autumn foliage\$1.00
aggregata Pratti, 2-3 feet. A handsome barberry\$1.00

BUDDLEIA. (Butterflybush.)

- alternifolia.** A fine addition to our summer flowering shrubs, blooms on the old wood. The pretty lilac to lavender racemes are very abundantly produced\$.50-\$1.00
ile de france. Fine novelty. Richest and darkest of the genus, glowing claret purple racemes a foot long with tightly packed flowers\$.50-\$.75
magnifica. Vigorous free blooming over a long season, plants are best cut down to the ground each spring, this ensures much finer racemes\$.50-\$.75

- Charming.** This comes nearest to a pure pink of any of the Buddleias50-75 cents each

 maritima alba. Pure white, very compact habit.

ARTEMISIA.

lactiflora (Chinese Mugwort.) Creamy white fragrant flowers in late summer, excellent for cutting.

Silver King. Very attractive silvery foliage, a valuable variety.

ASPHODELUS.

luteus. (Yellow asphodel or Jacobs rod), a fine perennial.

ASCLEPIAS.

tuberosa. (Butterflyweed.) Brilliant orange flowers, very showy.

ASTERS

The hardy asters are rapidly forging ahead in importance and no garden of hardy plants today is at all complete without them, while a few varieties bloom in May and June the great bulk of the family are late summer or fall bloomers. In the past few years there have been some splendid varieties produced abroad, the bulk in England but some on the European continent, very few have been raised in America although European hybridizers had to depend on our native varieties to produce the many hybrids sent to us for many years. The new dwarf asters are indispensable in gardens, they are very compact and floriferous. All varieties are absolutely hardy and spring planting is much the best for all of them. Some striking new varieties are contained in the list following.

DWARF ASTERS

NEW ENGLISH TYPE

This very valuable new type was evolved by a noted gardener who had charge of the war gardens where several hundred thousand British soldiers who fell during the world war are buried in France.

- R.* **LADY HENRY MADDOCKS.** Clear pale pink. 12 inches.
- R.* **LILAC TIME.** Of a lovely lilac color, one of the best. 12 inches.
- R.* **MARJORIE.** Deep apple blossom pink. Late September. 12 inches.
- R.* **NANCY.** Pale flesh pink. Late September. 12 inches.
- R.* **SNOWSPRITE.** Semi-double white in early September. 9 inches.
- R.* **VICTOR.** Clear lavender blue.

HARDY ASTERS

FALL FLOWERING SECTION

(Michaelmas Daisies)

- Alderman Vokes.** Extra fine medium blue, large flowers, 2-2½ feet.
- Beechwood Challenger.** (New.) The finest of the red asters to date, grows 4-5 feet high with fine heads of bloom in late September.
- Burbanks Charming.** A grand very late variety, origin doubtful, blooms in mid-October and onwards. Grows 4-5 feet high but improved by pinching, loose feathery heads of very pale rose flowers.
- Charles Wilson.** The darkest colored variety to date. Novi Belgii section, height 3 feet, color rosy red with yellow centre.
- Feltham Blue.** Novi-Belgii section. Height 4 feet, pure blue September bloomer.
- Frikarti.** var. Wonder of Stafra. Of Amellus section, rather slow of increase, extra large blue flowers in August and September, height 2-2½ feet, one of the indispensables. 50 cents each.
- Gayborder Charm.** Of Novi-Belgii type, height 2½ feet, in good flower October 1, color deep rose. A very fine variety.
- Harringtons' Pink.** (New.) Of Novae-Angliae section. Here we have the first really pink hardy aster, planted late last season plants averaged 2½-3 feet high and earlier planting will ensure bushy plants 4-5 feet high, flowers are large and are in season Sept. 15 and onwards. This puts all other so-called pinks utterly in the shade and is easily the most outstanding hardy aster yet seen. Award of Merit Massachusetts Horticultural Society, October 5, 1937. Early application is suggested as the demand this season will far exceed the supply. 35 cents each, \$4.00 doz.
- Hybridus Luteus.** (See Solidaster.)
- Mount Ranier.** Beautiful snowy white. 35 cents.
- Mrs. George Munro.** A fine pure white Novi-Belgii variety, semi-double and very free, large blooms. Height 2-3 feet. 35 cents each.
- Mount Everest.** Easily the finest white aster, 4-5 feet high, occasionally more, immense pyramidal heads of flowers. 35 cents each.

Ptarmacoides. A native variety often known as the "baby's breath aster," small white flowers which suggest gypsophila, fine for cutting.

Skylands Queen. Novi-Belgii variety. An American introduction which we were the first to offer. Height 3-4 feet, large lavender flowers and still the best of its color.

SURVIVOR. (*New.*) This is an outstandingly good aster of the same color as the popular Harringtons Pink but the flowers are larger and extend the season about a fortnight, 50 cents each, \$5.00 doz.

VIOLETTA. Here we have easily one of the most lovely blue asters of compact habit and not exceeding 24 inches in height. Everyone who has seen or grown this aster is enthusiastic over it. 35 cents each, \$4.00 doz.

VARIOUS OTHER ASTERS

R. **alpinus.** Lilac purple flowers 9-12 inches high in late May and June. Large flowers.

R. **var. Star of Wartburg.** A fine novelty, much superior to type which it will displace, 9-12 inches high, late May and early June, excellent for Rock Garden. 35 cents each.

Tataricus. The tallest and latest flowering of all asters, 6-8 feet, very large leaves and sturdy stems, really an early November variety.

R. **Himalaicus.** A very interesting and compact habited species, height 6 inches, large medium blue flowers, lovely Rock Garden variety.

ASTILBE. (Formerly Spiraea.)

Elegans. Dark rosy pink, splendid variety. 40 cents.

Gladstone. Large pure white pyramidal heads, 35 cents.

Gloria. Very rich deep pink. 35 cents.

Granat. Very rich deep red, tall grower. 35 cents.

Kriemhilde. Feathery spikes of salmon pink. 35 cents.

Market Glory. Splendid new red variety, tall spikes, 35 cents.

Moerheimi. Extra robust pure white variety. 35 cents.

Philadelphia. Clear lavender rose. 35 cents.

Rose Pearl. Lovely shell pink. 35 cents.

Vesta. Lilac rose of moderate height. 35 cents.

White Plume. Superb pure white, tall and stately. 35 cents.

All varieties of Astilbes priced 35 cents are \$3.50 per doz.

These astilbes do especially well in moist ground where they will attain a much greater height and hold their flowers longer than in dry soil.

R. **AUBRIETIA.**

R. **leichtlini.** (Leichtlins Aubrietia.)
Lovely mauve to purple flowers.

BAPTISIA. (False Indigo.)

australis. Deeply cut foliage and dark blue flowers in June.

BELEMCANDA.

sinensis (Blackberry Lily.) Orange and black flowers followed by seeds which closely resemble blackberries.

BELLIS. (English Daisy.)

R. **perennis flore-pleno.** Red, pink and pure white.

BOLTONIA.

asteroides. (False White Camomile.) Pure White.

latisquama. (Violet Camomile.) Lovely violet flowers.

CAMPANULA.

R. *carpatica caerulea*. (Blue Carpathian Bellflower.)

R. *carpatica alba*. (White Carpathian Bellflower.)

R. *carpatica*, Dwarf hybrids. These have extra large flowers and attain only half the height of the ordinary *carpaticas*, flowers also are different in form.

R. *garganica*. Lovely rich blue trailing variety. Superb rock garden plant. 50 cents.

glomerata dahurica. (Danesblood.) Deep violet blue.

lactiflora. Superb pale blue variety, grows 3-4 feet high, flowering in July.

medium. (Canterbury Bell.) Single pink, white, mauve and deep blue. Strong field grown plants.

persicifolia. (Peach leaved Bellflower.) Pretty blue.

persicifolia var. *Blue Gardenia*. (New.) Grand new variety with extra large double pure blue flowers. 60 cents each, \$6.00 doz.

persicifolia alba. Fine pure white form.

persicifolia *Telham Beauty*. Extra large flowers of a lovely China blue shade.

R. *Poscharskyana*. (New.) A new species from Serbia, long sprays of open lavender blue flowers, 50 cents.

R. *rotundifolia* (*Harebell*.) Often called the "Blue Bells of Scotland."

CENTRANTHUS. (Jupiter's Bear.)

ruber (*Red Valerian* or "*Pretty Betsy*.") Red fragrant flowers. Occasionally pink or white.

CERASTIUM. (Snow in Summer.)

R. *tomentosum*. Grey foliage, pure white flowers, fine rock plant.

CERATOSTIGMA. (Hardy Leadwort.)

R. *plumbaginoides*. (Formerly *Plumbago larpentae*.) Deep blue flowers in late summer, give well drained position and good winter protection.

CHEIRANTHUS.

R. *allioni*. (*Siberian Wallflower*.) Rich orange fragrant flowers.

Golden Bedder. Habit similar to *allioni* but the color is golden yellow.

CHRYSANTHEMUM.

maximum *The Speaker*. Flowers often 6 inches across, very fine.

maximum *Rentpayer*. The finest of all the Shasta daisies.

Chiffon. A very pleasing variety with rather loose and graceful flowers.

MOUNT SHASTA. (New.) A strong growing pure white and fully double Shasta Daisy is something we have wanted for years. In Mount Shasta we have all these qualities plus absolute hardiness. 50 cents each, \$5.00 per doz.

CHRYSANTHEMUMS, FALL FLOWERING SECTION, NOVELTIES FOR 1942

PEACHBLOW. In this variety we get a glorious blending of salmon pink, fawn and bronze. Husky,

strong stemmed carrying large quantities of 2½ inch flowers from late September onwards. 60 cents each.

SEPTEMBER BRONZE. The warm tints of autumn are beautifully reflected in this very shapely fully double pompon which carries a wealth of flowers openly in mid-September and persisting until killing frost. 60 cents each.

SEPTEMBER CLOUD. A fine compact pompon with pure white flowers which are beautifully rounded. In season from September 15 onwards. 60 cents each.

SEPTEMBER GOLD. A brilliant golden yellow pompon carrying 25 or more blooms to a spray. Height 18 inches but much wider. 60 cents each.

SILVER MOON. In this variety we get a milk white flower with a double row of petals, suggests a very showy Shasta daisy. Fine habit and lovely dark green foliage. 60 cents each.

Collection of above five novelties, one of each, for \$2.50.

EARLY WONDER. (Plant Patent No. 490.) In this fine novelty we have an outstandingly beautiful fully double variety which is in season in late September. The flowers are 2½ inches in diameter and of a peachblossom pink color, they are produced in great profusion. 60 cents each.

CHRYSANTHEMUMS, HARDY FALL BLOOMING GENERAL LIST

ACACIA. Small fragrant semi-double yellow in late September.

AUTUMN LIGHTS. Fine coppery bronze in late September.

AMELIA. Low growers, compact, hardy, not of great value for cutting. This the original color is pink. All of this family flower early.

AMELIA. BRONZE CUSHION.

AMELIA. KING CUSHION. Bronzy salmon.

AMELIA. RED CUSHION. Of a pleasing red shade.

AMELIA. QUEEN CUSHION. Pure white.

AMELIA. YELLOW CUSHION.

ASTRID. An Acticum hybrid with pleasing single pink flowers.

CALIPH. Velvety rich red. After October 6.

EARLY BRONZE. Fine double early bronze after September 10.

EMBER. Double coral and orange about October 10.

COREOPSIS.

grandiflora Mayfield Giant. This is easily the best form of long season flowering perennial.

CYCLAMEN. Hardy varieties.

Coum. Deep pink to red, spring bloomer. \$1.00 each.

Europaeum. Color usually red, occasionally pink, fall bloomer. \$1.00.

Neapolitanum. Fall bloomer. Color varies from red to pure white. \$1.00.

DELPHINIUM. (Larkspur.)

belladonna. Lovely pale blue, delightful with *Lilium candidum*.

belladonna var. Cliveden Beauty. Beautiful Cambridge blue, taller than type.

bellamosum. Dark blue, hybrid between *formosum* and *belladonna*.

blue butterfly improved. Beautiful deep blue.

Blackmore & Langdon's Gold Metal hybrids.

The finest hybrids in the World. 50 cents each, \$6.00 doz., \$45.00 per 100.

Double pure white, 50 cents.

hollyhock strain. (Watkins Samuels.) 50 cents each, \$6.00 doz.

Pacific strain. A fine new strain which is giving much satisfaction. Blue shades, strong flowering plants. 50 cents each, \$5.00 doz.

Pure white, extra fine double flowers, 75 cents each, \$7.50 doz.

DIANTHUS.

R. arvenensis. A lovely little variety, forming compact grey rosettes which are studded with pink flowers. 35 cents.

barbatus. Newport Beauty. Lovely salmon pink variety.

R. deltoides alba. Pure white, with dark eye, nice tufted habit.

R. deltoides Major Sterns variety. Very richly colored variety.

R. caesius. Millard's variety. Very compact and flowers a better color than the type.

- plumarius. (Spice Pink.) Finely fringed very fragrant flowers.
- R.* royesii. Compact, bright pink alpine variety, very satisfactory. 35 cents.
- sweet wivelsfield. Excellent as either biennial or perennial, comes in fine range of colors, long season of bloom.
- R.* **DAPHNE.** (Rose Daphne.)
- cneorum. A low growing evergreen but often included amongst perennials on account of its great value as a rock or edging plant. Very fragrant pink flowers in May and persists until late fall. Strong plants, \$.50-\$2.00.
- DICENTRA.** (Bleedingheart.)
- R.* eximea formosa (Western bleedingheart.) Perpetual bloomer, fine for rock garden, attractive foliage all summer.
- R.* oregana. Dwarf and an excellent variety for the rock garden. 75 cents.
- spectabilis. This is the well known and very popular "Bleedingheart." An early bloomer. \$.50-.75 each; \$5.00-\$7.50 doz.
- DICTAMNUS.** (Gasplant.)
- fraxinella. Rosy purple, splendid garden plant, resents disturbance, holds green foliage all summer. 50 cents.
- albus. (White Gasplant.) Equally as vigorous as the type. Strong three year old plants. 50 cents each, \$5.00 doz.
- DIGITALIS.** (Foxglove.)
- ambigua. (Yellow Foxglove.) A fine perennial species.
- purpurea. (Common Foxglove.) Flowers purple, fine for either the garden or naturalizing.
- purpurea alba. Splendid pure white form.
- DODOCATHEON.** (Shooting Star.)
- R.* media. Light purple flowers on graceful stems.
- DORONICUM.**
- mme. mason. An excellent variety of dwarfer habit than excelsum. 35 cents.
- plantagineum excelsum. A splendid variety with golden yellow flowers on stalks 2-3 feet high, very early blooming. 35 cents.
- DRABA.**
- R.* fladnitzensis. Yellow flowers with fine moss like growth. 30 cents.
- ECHINACEA** (Rudbeckia.)
- purpurea. Reddish purple flowers with long drooping rays.
- ECHINOPS** (Globethistle.)
- sphaerocephalus. (Common Globethistle.)
- EPIMEDIUM.**
- R.* alpinum. (Alpine Epimedium.) Very desirable rock plant. 50 cents each, \$5.00 doz.
- R.* album. Pretty variety with white flowers. 50 cents.
- R.* macranthum. Racemes of white flowers. 50 cents.
- R.* sulphureum. Charming variety with yellow flowers. 50 cents.
- ERODIUM.**
- R.* chamaedryoides roseum. Round lovely pink geranium like flowers, very dainty. 50 cents.
- ERYNGIUM.**
- amethystinum. (Amethyst Eringo.) Blue heads of flower, attractive.
- EUPATORIUM.**
- caelestinum. Light blue Ageratum like heads of flower in late fall.

EUPHORBIA.

myrsinites. Very attractive silvery foliage, evergreen, heads of soft yellow flowers in early May.

corollata. Heads of dainty white flowers.

polychroma. Large and very showy yellow bracts in early spring.

FESTUCA.

glauca. A neat glaucous blue foliaged grass.

FERNS. Hardy Varieties.

R. adiantum pedatum. American hardy maiden-hair fern.

R. asplenium platyneuron. Ebony Spleenwort.

arthyrium felixfemina. Lady fern.

camptosorus rhizophyllus. Walking fern.

dennstedtia punctilobula. Hay-scented fern.

dryopteris marginalis. Leather wood fern.

dryopteris spinulosa. Toothed wood fern.

osmunda cinnamomea. Cinnamon fern.

osmunda claytoniana. Interrupted fern.

osmunda regalis. Royal fern.

polystichum acrostichoides. Christmas fern.

pteritis nodulosa. Ostrich plume fern.

woodsia ilvensis. Rusty Woodsia.

Prices of hardy ferns, well established plants, 20 cents each, \$2.00 per doz., \$15.00 per 100.

GALEGA. (Goatsrue.)

hartlandi. Dense clusters of blue and white pea like flowers.

GAILLARDIA. (Blanket Flower.)

barnes ruby. (New.) Brilliant ruby red, no other color in flower. 50 cents.

chloe. Fine golden yellow. 50 cents.

grandiflora. Harkness choice hybrids, persistent bloomers.

portola hybrids. These embrace some extremely rich color.

R. flavum. Golden flax.

R. perenne. Very pretty pale blue flowers, persistent bloomer.

LATHYRUS.

latifolius albus. (White perennial pea.)

latifolius. Pink Pearl. (Pink perennial pea.)

LEONTOPODIUM.

R. alpinum. (Swiss Edelweiss.) A very interesting rock garden plant. 35 cents.

LIMONIUM. (Statice.) (See Lavender.)

latifolium. Small purplish blue flowers, produced in cloud like heads in August, may be dried for winter use.

R. dumosa. Valuable new dwarf variety with silvery grey flowers, fine for the rock garden.

LITHOSPERMUM.

R. prostratum "Heavenly Blue." A glorious low growing rock plant of an exquisite blue color. Requires good drainage and full sunshine. 50-75 cents.

Grace Ward. A rather purer blue than "Heavenly Blue" and hardier. 75 cents.

LOBELIA.

cardinalis. (Cardinal Flower.) Brilliant scarlet.

LUPINUS. (Lupine.)

polyphyllus coerulea. Deep blue.

polyphyllus alba. Pure white.

polyphyllus roseus. Lovely pink.

polyphyllus Downers Choice Hybrids, many unusual shades.

Russell Hybrids. (New.) These are one of the sensations in hardy garden plants being the grandest lupins yet introduced. They secured a gold medal from the Royal Horticultural Society in London in 1937. Strong field plants, 50 cents each, \$5.00 a doz. Plants in pots, 30 cents each, \$3.00 a doz.

LYCHNIS. (Campion.)

R. alpina. The Arctic campion is very dwarf, carries rich rosy purple flowers and is fine for the rock garden.

viscaria splendens. Rich rosy pink. Flowers lightly tipped crimson, fine rocky plant.

LYSIMACHIA.

clethroides. (Clethra loosestrife.) Long recurving tail like racemes of pure white flowers.

- R.* nummularia. (Moneywort.) Fine plant for covering bare ground, especially good in shade.
- LYTHRUM.** (Loosestrife.)
roseum superbum. Attractive pink spikes, fine for the shores of ponds and streams.
- MALVA.** (Mallow.)
moschata alba. (White Mallow.) An excellent border plant.
- MENTHA.**
R. requienii. Minute prostrate creeping habit, makes a wonderful carpet. Peppermint scented.
- MERTENSIA.** (Bluebells.)
R. virginica. (Virginia bluebells.) Lovely pale blue flowers, glaucous foliage.
- MONARDA.** (Beebalm, Oswego Tea.)
didyma. Crimson scarlet flowers, fragrant foliage.
- MISCANTHUS.** (Eulalia.)
gracillima univittata. (Japan rush.) Graceful narrow foliage, green with silvery midrib. Fine ornamental grass.
japonica. Long narrow, graceful green foliage, attractive plumes when in flower, 6-7 feet high.
- Prices of Miscanthus 40 cents each, \$4.00 per doz.
- MYOSOTIS.** (Forget-me-not.)
R. palustris semperflorens. Bright blue, constant bloomer in moist ground.
- NEPETA.**
R. mussini. (Lipwort.) Clouds of attractive blue flowers all summer, fine for edgings or the rock garden.
souv. d'andre chaudron. An excellent and floriferous variety.
- NIEREMBERGIA.**
R. rivularis. Makes a perfect mat like growth above which rise large snow white campanula like flowers in great numbers, it has a prolonged flowering season starting in late July, one of the best rock plants we have.
coerulea (hippomonica.) Neat little bushes smothered with lovely blue cup shaped flowers the entire summer. Needs cold frame protection in winter. One of the best novelties in recent years.
- OENOTHERA.** (Evening primrose.)
fruticosa major. Deep yellow flowers, neat bushy habit.
fruticosa Youngi. Large golden yellow flowers.
- PEONIA** (Peony.) Each
- | | |

angustifolia. A lovely spring flower resembling Mertensia virginica. 35 cents. \$3.50 per doz.

maculata. Beautiful silvery spotted leaves and pink flowers, very attractive without flowers. 50 cents, \$5.00 per doz.

PYRETHRUM. (Persian daisy.)

roseum, single in white, pink and red shades separately.

roseum, choice mixed all colors.

uliginosum. (Giant oxeye daisy.) Grand border plant, flowers in late summer.

Miami Queen. Splendid double pink variety. 50 cents.

Buckeye. Another fine double rosy red. 50 cents.

RUDBECKIA.

purpurea. Purple cone flower, long season bloomer.

Autumn Sun. Tall grower, beautiful masses of single golden flowers for many weeks, a striking variety.

SALVIA. (Sage.)

azurea grandiflora. Beautiful deep blue flowers in long racemes, flowers in late September. One of our best blue perennials.

pratensis tenorii. Rather dwarf in habit, a smother of blue flowers in June.

pitcheri. Grows 3-4 feet high, rich gentian blue flowers in early fall, greatly admired. 35 cents.

SANGUINARIA.

R. canadensis. (Bloodroot.) Pure white flowers in very early spring. Prefers shade and moisture.

R. **SAPONARIA.**

ocymoides. (Rock Soapwort.) Rosy pink, fine trailing rock plant.

SAXIFRAGA. (Saxifrage.)

R. apiculata. Pale yellow flowers in very early spring.

R. cordifolia. Broad dark green foliage, highly colored during winter, robust spikes of pink flowers in early spring.

R. crustata. Of Aizoon section, neat and an easy grower.

R. ferdinand coburgi. Makes a very neat cushion, soft yellow flowers. 35 cents.

R. primuloides. Small pink flowers and green foliage.

SCABIOSA.

caucasica. Beautiful rich blue, splendid for cutting.

caucasica. Houses choicest hybrids. Beautiful shades of blue, magnificent perennials. 40 cents each, \$4.00 doz.

SEDUM. (Stonecrop.)

R. acre. The pretty little "gold dust" of old walls and roofs.

R. album. Tufted evergreen habit, white flowers.

R. anglicum. Very neat compact variety with white flowers.

R. hispanicum. Sweetly pretty, small growths, pink flowers.

R. lydium. Neat and interesting, glaucous foliage.

R. reflexum. Yellow flowered species.

R. sexangulare. Dark green foliage, yellow flowers.

R. sieboldii. Lovely late flowering variety from Japan, bright pink flowers.

spectabile. Of erect habit, 18 inches in height, large heads of showy rose colored flowers. *spectabile brilliantissima*. Extremely brilliant variety, has received many high awards.

SEMPERVIVUM. (Houseleek.)

R. arachnoideum. Spider web houseleek, very interesting plant.

R. arenarium. Small green rosettes in great numbers.

R. atro-violaceum. Richly colored variety.

R. fimbriatum. The fimbriated houseleek.

R. fauconetti. Bronzy colored, attractive rosettes.

R. funckii. The green rosettes are tipped brown.

R. globiferum. Flattened rosettes of grey green.

R. rubicundum. Large violet tinged rosettes, very

striking. 50 cents.

- R. schotti. Rosettes 2-3 inches across, green tipped brown, is also known as *S. glaucum*.
- R. soboliferum. "Hen and Chickens." Lusty grower.
- R. tectorum. Roof houseleek, the best known variety.

The sempervivums are splendid for hot, dry sunny locations where soils are light.

SIDALCEA.

hybrida. Splendid perennials with upright spikes of flowers reaching a height of 4 feet, varying colors.

SILENE. (Catchfly.)

- R. maritima. Sea pink. Pretty trailing plant with white flowers.
- R. schafta. Rosy purple, trailing habit, good rock plant.

SOLIDASTER.

luteus. Formerly known as *Aster hybridus luteus*, a charming plant with rather soft yellow flowers carried on large heads, height 15-18 inches.

STACHYS. (Betony.)

- R. lanata. White wooly leaved plant, fine for rockery or edgings.

STOKESIA. (Giant cornflower.)

cyanea. Large blue flower of aster like form, late bloomer.

TEUCRIUM.

- R. chamaedrys. Splendid perennial plant, bushy habit, greyish foliage, flowers are reddish purple to rose in color produced in whorls.

THALICTRUM.

- R. adiantifolium. Maidenhair meadowrue, graceful fern like foliage.
- dipterocarpum. Lovely mauve flowers in large panicles. 35 cents each.
- flavum. Pale yellow heads of flowers on long stems in July.
- glaucum. Fragrant yellow flowers, blue gray foliage.

THERMOPSIS.

mollis. Erect spikes of soft yellow flowers.
caroliniana. Tall spikes of bright yellow flowers.

THYMUS. (Thyme.)

- R. aurea. Golden foliage, very attractive.
- R. citriodora. Very spicily fragrant.
- R. herba-barona. Has a very distinct spicy odor.
- R. serpyllum. Creeping habit, flowers purple.
- R. serpyllum album. Pure white flowers, pretty variety.
- R. serpyllum coccineum. Red flower form.
- R. serpyllum lanuginosus. Woolly leaved creeping thyme, very popular variety.

TRADESCANTIA. (Spiderwort.)

virginiana. Useful garden plant, deep blue flowers. We also have white and pink forms.

TROLLIUS. (Globeflower.)

asiaticus. (Asiatic globeflower.) Rich orange.
ledebouri golden queen. Rich golden yellow flowers with deeper centre, very robust grower and a later bloomer than other vars.
europaeus. (European Globeflower.) Rich golden yellow.
japonicus. Very rich orange.

Prices of Trollius 50 cents each, \$5.00 per doz.

TUNICA. (Tunic flower.)

- R. saxifraga. Small pale purple flowers, produced all summer.

VALERIANA. (Golden heliotrope.)

officinalis. Useful, robust, fragrant, free flowering perennial.

VERONICA. (Speedwell.)

blue spire. A grand hybrid between *longifolia subsessilis* and *spicata*, retains the dark foliage and rich blue of *subsessilis*, fine bushy habit. 35 cents each, \$3.50 per doz.

R. corymbosa stricta. Fine alpine, dense plumes of azure blue flowers.

R. incana. Pretty silvery foliage and violet blue flowers, fine plant for the rock garden or edging.

incana rosea. Pretty pink flowers.

longifolia subsessilis. One of the most valuable of all blue flowering perennials.

R. repens. Superb, compact growing rock plant, smothered with pale blue flowers in late spring.

R. royal blue. Dwarf bushy habit, dark blue flowers.

R. saxatilis. Pretty blue flowers, prostrate habit.

R. VINCA.

minor. (Periwinkle.) Splendid for ground covers in either sun or shade.

R. minor alba. Pretty pure white variety. 35 cents.

R. bowles variety. More compact habit, much superior to type.

VIOLA. (Violet family.)

R. arkwright ruby. Very rich ruby colored flowers.

chantreyland.

The finest acquisition in Violas in recent years. Flowers are of a rich apricot color, plants are much more stocky than those of Apricot.

R. jersey gem. A wonderfully profuse bloomer, rich purple color, the most dependable and persistent of the whole family.

R. odorata. Double Russian. Perfectly hardy, the deep purple flowers are intensely fragrant.

R. odorata. Single Russian. A sweet single scented purple variety.

R. odorata rosina. This is the charming and very fragrant pink form which flowers heavily in late fall and again in spring.

R. odorata semperflorens. Introduced in 1938 this variety has very emphatically made good. Outdoors it flowered from early April until Thanksgiving Day while plants in pots under glass bloomed the entire winter, very fragrant, succeeds in sunshine or shade and is a grand acquisition.

We can also supply a number of the best of the larger flowered tufted Violas like *lutea splendens*, *admiration*, *primrose dame*, *imperial blue* and *blue perfection* as well as a superb strain of Pansies.

YUCCA.

filamentosa. Vigorous spikes attaining a height of 5-6 feet, large creamy white flowers. Succeeds well in quite poor soil, very striking evergreen foliage. 30-50 cents.

SOME INTERESTING AND LOVELY NATIVE MATERIAL FOR SPRING PLANTING

We also carry the celebrated ORGANO fertilizers,
Superphosphate, Agrico and other popular Plant
Foods.

**HIGH QUALITY LAWN SEED FOR EITHER
SUNNY OR SHADY LOCATIONS**

SPECIAL NOTICE—Customers wanting Plants
or Bulbs per mail should add a moderate amount to
their remittances to cover these charges. Lily and
other Seeds are always mailed at our expense. An
extra charge is necessary for the delivery of Fer-
tilizers, Peat Moss, Leaf Mold, Crancover, Trees and
Shrubs.

We heartily approve of all who can spare some
portion of their garden to plant certain Food Crops,
but do not foolishly tear up a nice lawn or shrub-
bery for such a purpose. We all need Flowers in
our Garden to bring cheer and comfort, and keep up
our morale. We will be pleased to advise as to what
Vegetables it will be best to grow and give cultural
advice regarding the same.

MASSACHUSETTS HORTICULTURAL SOCIETY

The next big New England Flower Show will be held in Mechanics Building, Boston, on March 16-21, 1942. It will have many striking features not hitherto seen at any great American Flower Shows.

The Society will hold a number of other exhibitions during the year which will be held in Horticultural Hall, 300 Massachusetts Avenue, Boston.

Our annual Fall Catalogue will be issued during August. It will include over 100 varieties of Hardy Lilies suitable for culture in New England, also Tulips of all types, Narcissus, Crocus, Iris, Scillas, Galanthus, Colchicums, Eremurus, Fritillarias, Ornithogalums, Sternbergias, Hyacinths, Cammasias and other Hardy Bulbs, also Freesias, Moreas, Lachenalias, Veltheimias, Amaryllis, Oxalis, Anemones and other Tender Bulbs. Included also are many interesting and beautiful Native Plants such as Cypripediums, Trilliums, Dodecatheons, Sanguinarias, Hepaticas, Epigaeas and other varieties. Copies will be mailed free on application.
